

A mountain the size of man

we
want
to
share

Base Nacional da IV or more commonly BNIV stands for Rover Scout Centre. It's a very beautiful place that's untouched by progress, only nature, silence, rocks, stars...

Drave is a remote Portuguese village that lies in a valley where three streams come together and form a small river.

What the Centre offers?

Camp

Our main goal is to promote an educational environment where Rovers can get tools to help develop themselves as active citizens, to refurbish the houses and maintain our campsites and to promote a spiritual conversion experience in a wonderful place.

Service

All Rovers are invited to give some time service to the Scout Centre

Educational programmes

The Rover Scout Centre (BNIV) proposes Educational Programmes, which are associated with the Rover Dimensions:

- *Sun* – Path
- *Summit* – Community
- *Valley* – Service

Events

Our events are for Rovers that want to participate individually to enrich themselves:

- “Between Sunrise and Sunset» – a weeklong camp of rebuilding
- “Dravin” – a weekend to celebrate our presence in Drave
- “Talitha Kum” – a demanding event focused mainly on Spiritual Development
- “Ephatá – a discovery time to live the Departure Rover Dimension.
