

# Cenáculo: **FOR Rovers BY Rovers.**

we  
want  
to  
share

The Cenáculo is the Rover's National Forum, created in 2001, where we intent to create the opportunity for an informal debate between Rovers from all over the country, in order to discuss the subjects that concern the young members of CNE.

This Forum OF Rovers, FOR Rovers, BY Rovers enhances young people for an active citizenship.

The project is developed in yearly Cycles, and is organized in a continued work through three National Forums. The participants, as representative of the Regions, are encouraged also to organize a Regional Forum, just before the end of the Cycle.

By assuring Rover's involvement in the Decision-Making process, we aim to:

- Make sure that young Scouts have the chance to give their opinion on the subjects related to the Scouting dynamic;
- Take Rover's contribution as a tool in the renovation process of CNE (according to the Scout method: "Ask the boy");
- Educate young Scouts to be active and participative as Scouts and as Citizens.

#### **"Cenáculo" Impact?**

- Active Rovers
- Effective involvement of young people in the renovation of CNE;
- Participative Citizens;
- Rehabilitation of the Scout image: Scouting as a tool in the construction of a new World!

**CENÁCULO: A "SCHOOL" FOR PARTICIPATION AND A GENERATION VOICE.**
